*'Dr Rosanna Cooper has been a fantastic guide and support through the gruelling Appeal process. I had gone through the ARCP Appeal and Review stages myself with advice from the BMA. I only involved Rosanna when it came to the preparation for the Independent Appeal. I regret not involving her earlier. Rosanna took my raw Appeal and in the course of a mammoth telephone and Skype conversation guided me through many alterations and improvements that would be necessary. Her knowledge in this area is superior to any other advisor I tried. After I had incorporated all her suggestions the Appeal documentation made a huge leap in its professionalism. She then kindly worked on it solidly over a full weekend to meet the deadline. What she was able to suggest and craft, from my draft, made the conclusions and summary rock solid. She displayed a level of care and interest in my case that was unsurpassed. I wholeheartedly recommend her and the firm, 5 stars'. **Dr W.M***
